

Pronounce Quick Guide

Why?

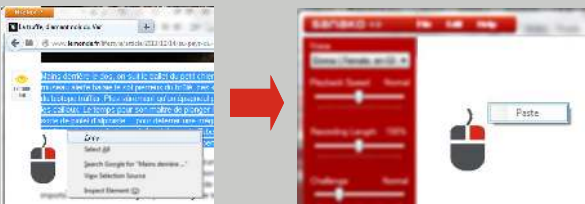

- Easy solution for improving oral skills in a foreign language
- Transform text material into spoken audio for pronunciation and speech practice.

How?

- Text is automatically divided into sentences
- Listen to a model reading of the sentence and make your own recording
- See your score and visual analysis of your pronunciation

How to bring text into Pronounce?

Copy and paste text from any source

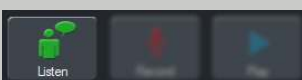

Open a text file

Note: When importing text from Microsoft Word, only the text will be copied and all images and other editing will be discarded.

Practicing pronunciation

Listen to the current sentence

Record yourself repeating after the model

Play back your own recording and compare with the model audio.

Your score

Score meter gives you an overall score for the sentence

I'd like a table for two please.

Colors grade pronunciation of individual words.
 Green on white = Correct pronunciation
 Green on yellow = Room for improvement
 Red = Word was not recognized
